

**VALUE
LEARNING**
helping your child achieve

**KS3
Mathematics**

OUR COMPANY

Welcome to Value Learning, the sought-after tuition service that prepares your child for success. Our overall aim is to inspire children to reach their full potential. Every child is unique with varied needs and we would in small target groups, help to **build confidence, challenge, reinforce and address** areas for improvement identified by the initial assessment for each pupil.

TEACHING

Our Curriculum Director, Temi Joseph is a Mathematics Tutor and Examiner with over 20 years teaching experience. As a successful educational consultant with profound insight and understanding of the British examination system, she has personally tutored hundreds of students to gain admission into their school of choice including top universities. She teaches some of the classes and is ably assisted by carefully selected tutors and trained teaching assistants.

We place a high value on your child's learning and utilize a mix of innovative teaching strategies to make difficult concepts easier. Our aim is to ensure each pupil is working at their own pace to mastery.

PROGRESS

At Value Learning the extra tuition provided is designed to complement the school curriculum throughout the year. However, we would hone in on pertinent difficulties as required to ensure we help your child eradicate mathematical misconceptions. Developing confidence, knowledge and study skills is a process. Homework plays an essential role in your child's progress by ensuring regular consolidation of the skills learnt at Value Learning. We believe every pupil has the potential to achieve his or her goals.

BENEFITS

01

CLASS SIZE

Classes are maximum of 3 pupils so we meet the individual needs of your child.

02

TAILORED

Individual Learning styles are inculcated into Teaching and Learning

03

KNOWLEDGE

We help "close the gaps" that inhibit pupil's progress at school.

04

APPLICATION

We teach functional maths to enhance understanding.

TIME

Mondays 4.30 - 5.30pm

All of our teaching sessions are conducted in a virtual, interactive environment, ensuring a dynamic and engaging learning experience that can be accessed from anywhere.

TESTIMONIALS

“Grace has moved up a set in maths. She has now developed more confidence in herself; even her teacher has noticed the difference in her class work”. Christine

“I attended the parents evening yesterday and I am pleased to say, Connie has made very good progress in her maths”. Thank you

“Emma’s teacher has noticed the huge improvement she has made in maths, even I have noticed her mental maths is 10 times better than before. I am very pleased with her confidence and progress.”
